LABELS CUTTING BLADES

11

For decades, Mongin have been following the evolution of high standards in the labels industry. The expertise gained over the years is proof of our manufacturing "Savoir faire". Our customer loyalty demonstrates our quality and our large, modern production capability is evidence of our performance and adaptability.

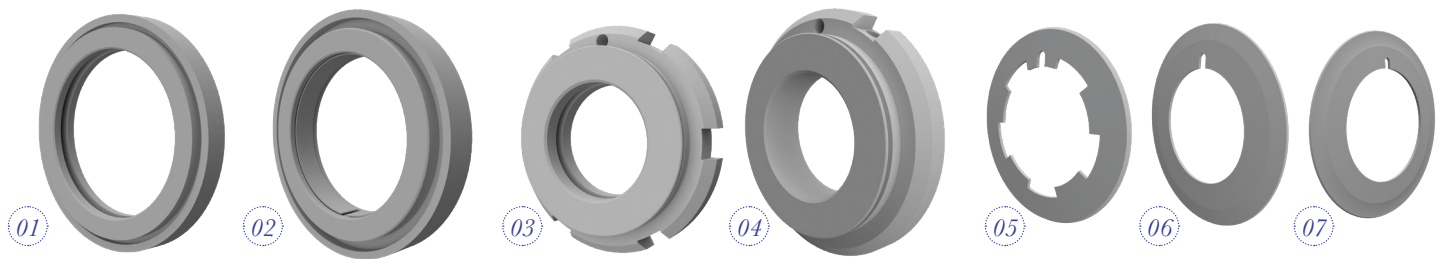

LONGITUDINAL CUTTING

SLITTER KNIFE - CROSS CUTTING

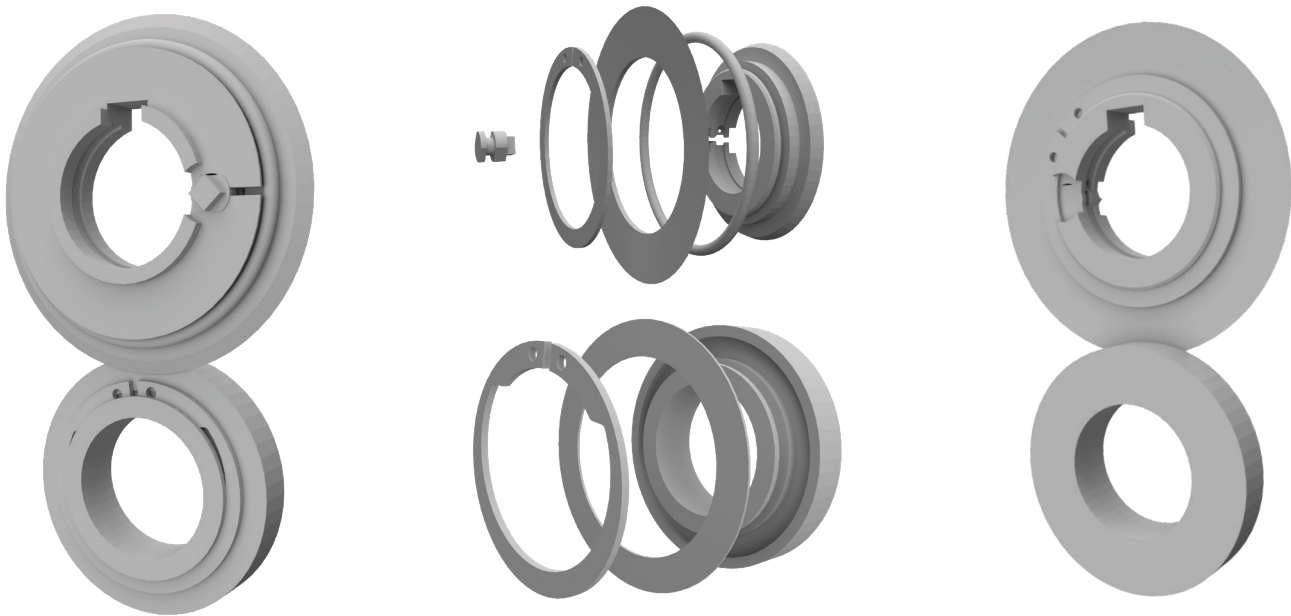

For the cutting of your coils, we offer a complete range of circular knife, dished knife, bottom knife and knife holder equipped with self-blocking system or screw clamps. We also supply various accessories (ball bearing, shaft, cutting ring, etc.)

1 / Bottom knife with self-blocking system
2 / Bottom-knife clamping screw on ring

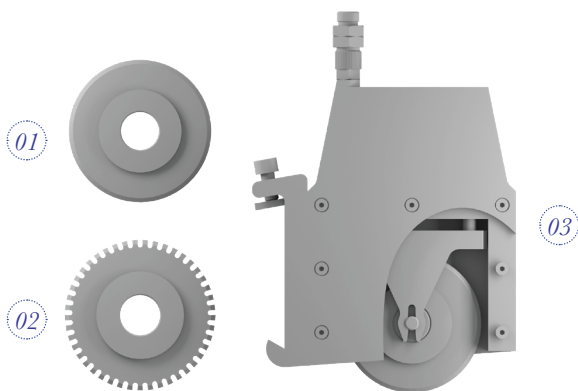

3 / Knife holder with self blocking system
4 / Knife holder screw clamp

5 / Dished knife bayonet bore
6 / Dished knife double bevel
7 / Dished knife hollow bevel

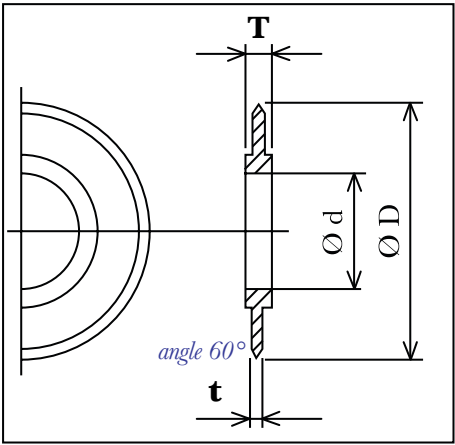

SLITTER KNIFE - PRESSURE CUTTING

Cut or pre-cutting with pneumatic wheel holder and scorer knife

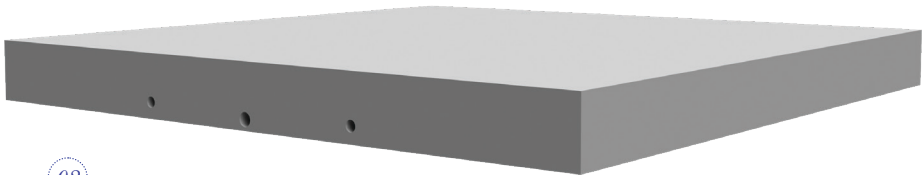

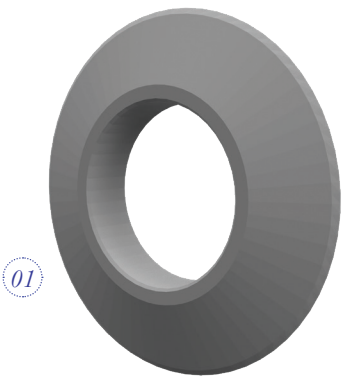

1 / Crush knife 2 / Perforating knife 3 / Set of scorer knife/ Pneumatic knife holder

KISS CUTTING

Cutting labels without cutting the substrate: there are two processes depending on what is being cut. The shape cutting with a net cut combined with an adjusting plate acting as an anvil. All our plates are made of processed, rectified and referenced steel for perfect flatness (0 - 0.001). Score knives with cylindrcial cutting counterpart.

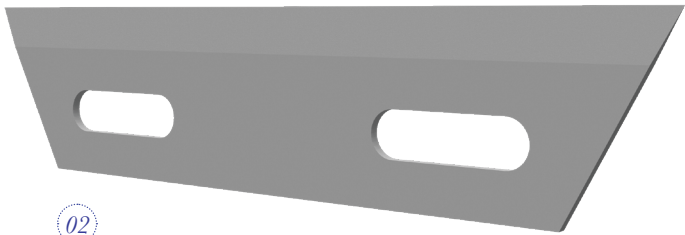

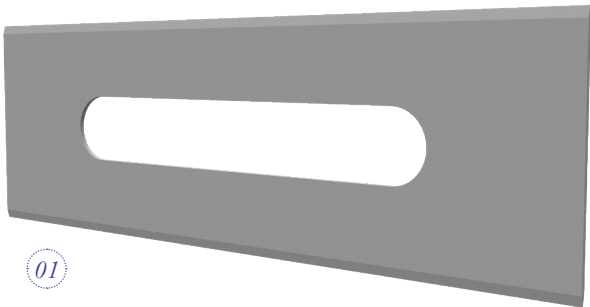

1 / Kiss cutting scorer knife

2 / Anvil
